## Dōdekal One

***To mark its tenth anniversary, MCT presents the Dōdekal One – D110, the first mechanical watch featuring an innovative digital hours display in the centre of the dial.***

Drawing inspiration from 1970s electronic watches, the Dōdekal One is driven by a new Manufacture movement, Calibre D1. The engineers of MCT Watches have used a complex set of cams and carriages to display the hours in the forms of segments in the dial centre, placing this model in a whole new dimension. The hours transition is effected by the translational motion of the segments over 2.5 seconds, offering an original and magical sight, while the minutes are displayed by a flying hand. A regulating organ serves to enable optimal management of the energy required for these animations, while ensuring a 50-hour power reserve for the self-winding movement, driven by a gold micro-rotor.

The Dōdekal One debuts an elegant cushion-shaped case measuring 43mm along its sides and distinguished by finely crafted lugs shaped like twisted leaves.

With the Dōdekal One, MCT Watches is continuing its approach of constantly reinventing the display of time and once again proves that there are no limits to performance and mechanical creativity in the field of watchmaking.

Available in titanium or titanium black DLC & 5N pink gold, the Dōdekal One – D110 is issued in a 25-piece limited series of each version.

## *DŌDEKAL ONE*

### *D110*

#### *TECHNICAL SPECIFICATIONS*

<b>REFERENCE</b>	SQ 43 D110 TI 01 / SQ 43 D110 AB PG 01
<b>FUNCTION</b>	Central digital indication of the hour Minutes' indication by a flying hand
<b>MOVEMENT</b>	MCT-D1 mechanical self-winding movement, developed and assembled by MCT 18 carat gold micro-rotor Bridges hand-chamfered and adorned with "Côtes de Genève" Traditional Breguet terminal curve Frequency 18,000 A/h (2.5Hz) Power reserve of 50 hours 62 Rubies
<b>CASE</b>	Cushion-shaped case of 43mm x43mm on the edges Crafted from titanium Grade 5 Front cambered crystal made of sapphire with double anti-reflective coating Rear crystal made of sapphire with anti-reflective coating on the inside side
<b>DIAL</b>	Black dial, white minutes' index, red minute's hand (Pink Gold 5N minute's hand for the 2nd version) White digital hours
<b>STRAP</b>	Alligator inner leather Deployment clasp
<b>WATER RESISTANCE</b>	30 metres / 3ATM
<b>GENERAL WARRANTY</b>	3 years
<b>LIMITED EDITION</b>	25 pieces of each version
