## The Sequential Two **S220 Bronze**

MCT Watches presents the Sequential Two – S220 Bronze, a 10-piece limited series forged from an alloy known for 5,000 years for its exceptional resistance: bronze.

The Sequential Two – S220 Bronze combines the post-modern architecture of its dial with the patinated sensuality of its bronze case. Epitomising the encounter between age-old expertise – bronze metallurgy – and the latest horological technologies developed in the MCT Watches workshops, this elegantly sized model features a 44.6 mm-diameter round case.

Anti-magnetic and resistant to wear, to deformation as well as to corrosion by seawater, bronze is a favourite material among ocean-going adventurers.

An innovative surface treatment has enabled the teams at MCT Watches to stabilise the oxidation of bronze, thereby ensuring that the patina of the Sequential Two – S220 Bronze is equipped to withstand the test of time, both on land and at sea.

The black dial background that is also picked up on the crown effectively highlights the bronze and silver tones of the time read-off elements, thereby ensuring an optimally user-friendly display.

Fitted with a patinated calfskin strap, the Sequential Two – S220 Bronze is an exceptional timepiece endowed with a perfect blend of modernity and timeless charm.

**TECHNICAL SPECIFICATIONS**

<b>REFERENCE</b>	RD 45 S220 VB 01
<b>FUNCTION</b>	Sequential indication of the hour on prisms Minute indication
<b>MOVEMENT</b>	MCT-S2.0 mechanical micro-rotor movement, developed and assembled by MCT Ø 37.40, H 10.75mm 507 pieces 18 carat gold micro-rotor Bridges hand-chamfered and adorned with "Côtes de Genève" Traditional Breguet terminal curve Patented system for accumulation of energy Frequency 18,000 A/h (2.5Hz) Indication of the Minutes on 360° sector Power reserve of 50 hours 85 Rubies
<b>CASE</b>	Bronze with sapphire ring around caseband Ø 44.60mm, H 14.50mm in centre Crafted from bronze and sapphire, composed of 43 parts  White gold crown  Front cambered crystal made of sapphire with double anti-reflective coating  Rear crystal made of sapphire with anti-reflective coating on the inside side Middle crystal made of sapphire
<b>DIAL</b>	Black dial, white indexes and numerals, black and pink minute hand Hours: Made of 4 modules composed of 5 triangular prisms each
<b>STRAP</b>	Calfskin leather strap Stainless steel buckle
<b>WATER RESISTANCE</b>	30 meters
<b>GENERAL WARRANTY</b>	3 years
